Unobstructed height above a pedestrian way is also important, especially for vision impaired people. Generally, this should be a minimum of 2300mm, except on sub-surface station platforms, where it should be 3000mm. Where a sign is suspended over a footway or pedestrian area, for example in a railway station, a minimum clearance of 2100mm is acceptable (2300mm on cycleways). Signs should be placed at a height that is appropriate for those for whom the message is intended. For example, signs for cyclists should be placed at a
